Do the right thing!

Pass tax extensions and restore tax equity

How to solve
the budget puzzle

- I want you, my state legislator, and the entire California Legislature to **prevent expiration of taxes that we already pay**. Loss of this \$8.5 billion will punish our students and public education. **Vote Yes!** on tax extensions.
- I want you, my state legislator, and the entire California Legislature to **restore tax equity and pass AB 1130** which will tax our state's highest 1 percent of income earners an additional 1 percent. **Vote Yes!** on AB 1130 to fund essential services.
