

Q1 This question will help us project the number of donations we will receive. In the upcoming pilot, if you donate one day during each catastrophic leave drive, you are eligible to request up to 50 days of fully paid catastrophic leave when you or a family member meet the definition of catastrophic illness or injury. If you do not donate during a drive, you will not be eligible to be a recipient of catastrophic leave during that cycle. Do you plan to donate one day and join the Bank in our upcoming drive?

Q2 The pilot language currently reads, “Once a unit member has joined the Catastrophic Leave Bank by donating at least one day of sick leave during the Catastrophic Leave Drive, the unit member shall remain a member of the Catastrophic Leave Bank, with one day being automatically deducted from the member’s sick leave and donated to the Catastrophic Leave Bank every third year...Members wishing to opt out of a three-year cycle can do so during the Catastrophic Leave Drive. Unit members who opt out of a cycle will not have a sick day automatically donated to the Bank and will not be eligible to be a recipient of catastrophic leave during that three-year cycle.” Are you in favor of this idea?

ANSWER CHOICES	RESPONSES
Yes. I prefer the auto deduction of one day each cycle (projected to be every three years). I don't want to forget to donate, because it will make me ineligible to receive catastrophic leave if I need it. I will opt out if I no longer wish to donate/participate.	66.57% 470
No. I prefer to take action to donate one day each drive period (projected to be every three years). I understand if I forget to donate, I will be ineligible to receive catastrophic leave if I need it.	28.90% 204
